LASH & BROW CARE

Lashes

Lash Lift

\$50

An all-natural, semi-permanent procedure that gives you the appearance of fuller, thicker eyelashes without the use of any leave-on chemicals or extensions. The natural lashes are boosted from the root, giving them a lifted, lengthened appearance. Results last approximately 4 weeks.

Lash Tint

\$50

Enjoy darker, more luscious lashes! A safe, semi-permanent vegetable dye is applied to the eyelashes. This is done to make your dull lashes appear not only darker, but also longer and fuller. Results last approximately 4 weeks.

Lash Lift & Tint Combo

\$90

Get effortlessly lovely lashes that are darker, lifted, and fanned out. This service combines our lash lift and tint processes to reveal your most naturally gorgeous eyelashes yet! Results last approximately 4 weeks.

Eyebrows

Eyebrow Shaping

\$25

Includes tweezing and trimming, enhancing your natural shape.

Eyebrow Tint

\$50

Thicker, more youthful looking brows are yours! A safe, semi-permanent vegetable dye is applied to the brows, darkening the fine hair surrounding the perimeter of the brow to increase width. It also allows darkening the fine hairs in the inner core of the brow that are in less dense areas. This creates a longer brow line (brow tail) or fuller front and a more ideal shape. Results last up to six weeks.

Eyebrow Shaping & Lamination Combo

\$90

Obtain fuller, more lifted brows with this simple process that smooths and reshapes hairs in a more aesthetically pleasing shape. This is a fantastic alternative to brow blading for many individuals looking to address sparseness, gaps, or unruly brow hairs. Results last up to six weeks.

Deep Tissue Massage

Deep Tissue is a massage technique that's mainly used to treat musculoskeletal issues, such as strains and sports injuries. It involves applying sustained pressure using slow, deep strokes to target the inner layers of your muscles and connective tissues. This helps to break up scar tissue that forms following an injury and reduces tension in muscle and tissue. It may also promote faster healing by increasing blood flow and reducing inflammation. This treatment is done in the salt cave.

Thai Massage

Thai massage uses gentle pressure and stretching techniques to relax the whole body. It is sometimes referred to as assisted yoga as it is a service that requires you to move with the practitioner, holding extended versions of postures that would be difficult to achieve alone. This massage is performed on a traditional Thai mat, on the ground. Breathe deeply into every crevice as your body is guided through each stretch and posture.
